

Emmanuel Garcia

WORK EXPERIENCE

Senior Web Developer

April 2015 – October 2023

FINE Design, Portland, OR

- Advanced to a senior-level role for a dev team of 8-10 people while helping lead the front-end side and adopting newer/modern technologies for our tech stack.
- Primarily focused on building performant/modern sites using Ruby on Rails for the back-end and Vue/Nuxt as a front-end platform.
- Was an integral part of the digital team and met with stakeholders to create and maintain digital experiences for clients, including Kirk Palmer, Gloria Ferrer, Cuvaision, and Carmel Partners.
- Brought sites to life by working closely with the design and IA teams by utilizing Figma for collaborating and providing wiring specs to integrate data into the front end using GraphQL.
- Developed responsive websites with a specific focus on accessibility and compatibility for all modern browsers and devices using optimal tools and guidelines.
- Assisted and mentored junior devs by conducting code reviews and providing constructive feedback to improve their skills and knowledge in web development.
- **Skills:** Vue/Nuxt, Ruby on Rails, SCSS, Tailwind, Javascript, GSAP

Front End Developer

January 2013 – April 2015

Freelance, Portland, OR

- Developed interactive and pixel-perfect web projects using various web technologies and frameworks, including WordPress and Drupal.
- Balanced varying project sizes and requirements based on project scope and quickly adapted with multiple dev teams and designers to meet deadlines and deliverables.
- Collaborated with various agencies in Portland, including Copious Substance, Harlo Interactive, OVO, Aisle7, PixelSpoke and Phoogoo.
- **Skills:** WordPress, Javascript, PHP, Woocommerce, CSS3, Responsive development, Drupal, jQuery

Web Developer

June 2010 – January 2013

Alliance Global, Los Angeles, CA

- Was involved in all aspects of front-end and back-end development cycles as well as providing technical guidance on all projects.
- Focused on e-commerce projects and improving content management systems on the back-end.
- Relied upon to use expertise to advise and push the company forward in terms of web technologies and modern web development techniques/tools.
- The client list included KateSomerville, Jabbawockeez, Sony, JAFRA Cosmetics, Romik, KCHiLites, and Icon Vehicle Dynamics.
- **Skills:** WordPress, Magento, PHP, Drupal, CSS, jQuery
